

## Reavis High School Curriculum Snapshot for Bestsellers

There are four units.  
Each follows this same pattern and  
takes approximately 4-5 weeks.

Students will be given a reading schedule before starting a book so they know when quizzes, tests, and discussions will take place. This will also allow them to have a clear understanding of how much reading they must complete per week. They will be given instruction on how to annotate their books; these books will be checked twice a week for a grade and will be used as a tool for discussion. An anticipation activity will be done prior to each book in order to activate prior knowledge and pique interest. Students will be given an individual quiz once a week to assess their understanding of what they are reading. They will also partake in a weekly guided group discussion test to assess their understanding of the book and foster quality discussion. The questions should push the students to analyze and question their own perspectives on various issues. There will be a culminating activity, discussion, or paper at the close of each book.
