

# Reavis High School

## Curriculum Snapshot/Cover Page for Web Design I

## Unit 4: Images and Links

10  
Days

Students will be able to manage a website and set the homepage. They will insert and align images. Links will be created to allow movement between pages

## Unit 5: Tables

15  
Days

Students will understand how to work with tables using standard and layout modes. Students will understand cell, row, and column properties. They will also understand HTML structure within a table.

## Unit 6: Templates

10  
Days

Students will be able to create and edit templates. Students will then be able to apply that template to new web pages.

## Unit 7: Forms

10  
Days

Students will be able to create a form to allow user interaction with a web site. Students will understand form elements such as text fields, checkboxes, and radio groups.
