Dear Parent/Guardian:

Illinois School Code now requires all students entering the 6th and 12th grades show proof of recent meningococcal conjugate vaccination (MCV). Students entering 12th grade will need to show proof of receiving two doses unless the first dose was administered after 16 years of age. In this case, only one dose after 16 years of age is required. This vaccination will prevent your student from a severe form of bacterial meningitis as well as other illnesses caused by this bacterium.

This letter is being sent to you because your student is entering 12th grade and needs to provide proof of immunization for the upcoming school year. Please send verification that he/she has received the required doses as soon as possible. Documentation accepted includes the following:

- **A letter or note signed by your health care provider identifying the date the MCV was administered.**
- **Printout from your provider's electronic medical record (EMR) that indicates the vaccine was administered.**
- **Current Certificate of Child Health Examination form, specifying the date the MCV was administered.**

This requirement must be met **before** your student begins school in the fall or he/she **will be excluded from school.** If you have any questions or concerns please feel free to contact me.

Thank you,

Maureen Carey RN, PEL-CSN
School Nurse
